Information for CCC2022 Poster Presenters

CCC2022 has decided to move online, including all poster presentations. For the sake of online real-time communications, each poster will be allocated a dedicated meeting room, whose information can be found later from CCC2022 official website. During the poster session, the presenter should remain in his/her dedicated meeting room, otherwise the presenter will be regarded as "No Show".

Poster presenters should provide a poster in the PDF format, designed following the CCC2022 Poster Template available from CCC2022 official website: https://ccc2022-en.ustc.edu.cn/ztlw/list.htm., a 3-5 min. introductory video, and the information of the poster presenter him/herself. Before uploading these materials, one should look into the Program Book available later from CCC2022 official website, and confirm his/her session (one of PMoA, PMoB, PMoC, PTuA, PTuB and PTuC) and code (two digits starting from 01).

All poster presenters should do the following:
